Summary

Experienced Fullstack Developer proficient in modern web technologies, including JavaScript, React, Node.js, and Next.js. I am skilled in designing and implementing scalable web applications, enhancing user experiences, and collaborating in agile environments.

Technical Skills

- **Frontend:** HTML, CSS, Javascript, React Js, React Native, Typescript, Tailwind, Recoil, Radix, Next Js.
- **Backend:** Node Js, Express, Typescript, Cloudflare Workers, Python, Django.
- **DevOps:** Docker.
- **Database & ORMs:** PostgreSQL, Drizzle, MongoDB, Mysql, Prisma.

Experience

Software Developer Intern - SuperBrain - 6 Months

- Next.js - Worked with the team to build the UI <https://www.getsuperbrain.app/>.
- React Native - Worked with the team to build new features.
- Django - I refined the bucketisation and added the forget password functionality.

Projects

[ShareKro](#) - Social media application

TechStack- React Js, Sanity, Tailwind CSS.

- Frontend development with React Js for creating interactive, intuitive, and responsive user interfaces. Backend implementation and database management are done with Sanity, featuring Google OAuth One Tap authentication, product catalog with image uploading, categories, commenting, dark/light mode toggle, and more.

[GrindCode](#) - Collaboration application for coders.

TechStack- Next Js, Tailwind CSS, Typescript, Zod, Postgresql, Drizzle.

- Front-end and backend development with Next.js is needed to create interactive, intuitive, responsive user interfaces and a robust backend. Database management uses Postgresql with ORM Drizzle, user authentication via next-auth Google provider, Zod for validation. The product catalog includes video streaming, toasts, tags, tag filtering, and more.

Education

2021-2024

University of Rajasthan, Jaipur – *Bachelor of Computer Application.*
